CAMELLIAS AT CHINQUAPIN FARM

Each year we try in our test gardens most of the many, many "new" varieties of Camellias as they are introduced, selecting the best of them for propagation and sale only after they have proven themselves to be good varieties as well as "new" varieties. This list contains 127 varieties which we are offering this season as having proven themselves in the more than 450 varieties which have been tested, and we feel are qualified to bear the label of Chinquapin Farm.

You are invited to visit Chinquapin Farm at any time during the Camellia season. We are located one mile east of Ocean Springs, Mississippi, on Highway 90, between Mobile and New Orleans, the new Highway 90 cutting right through our nursery. Hours are: week days 8 to 5 year round, and 1 to 5 on Sundays from January first to March fifteenth.

TERMS AND PRICES—Our prices are net, cash with order either for plants picked up at the farm or shipped. No COD shipments. Crating for shipment will be made without charge, and unless otherwise directed all shipments will be made by Railway Express collect. Our responsibility ceases when shipment is turned over to carrier.

When customer makes selection in our fields, plants will be priced according to individual character and catalogue prices will not necessarily prevail.

Any claims for error must be made within ten days after receipt of plants. We are more than glad to correct any mistakes should they occur, but in no instance will our liability be more than the original purchase price of the plant or plants.

GUARANTEE—Our plants are guaranteed to be true to name, well rooted and free from disease when they leave our farm. Since we have no control over the growing conditions after the plants leave us, we cannot guarantee them to live. That depends upon the knowledge and skill of the purchaser.

From time to time, particularly in grafting, the amount variegation will vary from plant to plant and even as between flowers on the same plant. With that in mind we do not guarantee the amount of variegation in any varieties.

FIELD GROWN CAMELLIAS

All plants shipped from this price list are grown in the open field, under full sun and are grafted on either sasanqua or Sarah Frost understock from 6 to 8 or more years of age. They are dug directly from our own fields with generous ball of soil and pinned in burlap. Absolutely none of the plants listed herein are grown in tin cans.

THE AMERICAN CAMELLIA SOCIETY—If you are not already a member of the American Camellia Society we urge you to become a member by sending your \$5.00 for annual dues to Box 2398, University Station, Gainesville, Florida, so as to become eligible for the current year book.

PREMIUM RARE CAMELLIAS

BETTY SHEFFIELD—White striped and blotched Red and Pink. Large loose semi-double to loose peony form with stamens interspersed among slightly waved petals. Medium, compact grower. One year grafts, mostly 12 to 18" \$7.50.

FLOWERWOOD (Plant patent #1004)—Fimbriated sport of Mathotiana. Ours usually blossom a bit more pink than Mathotiana. One year grafts \$7.50 and \$10.00, and two year grafts \$12.50 and \$15.00.

HELEN K—Delicate Pink at base, gradually darker toward edge and edged pale lavender. Large peony form. Vigorous compact growth. One year grafts \$7.50 and \$8.50.

DR. JOHN D. BELL—Variegated form of Beau Harp—Dark Red heavily variegated White. A strong upright grower. One of the finest Camellias we have ever seen and definitely one of our favorites. One year grafts \$7.50 and \$8.50, two year grafts \$10.00 and \$12.50.

JACK O'HEARTS—Another fine introduction by our friend and neighbor, Mr. J. S. Bradford who introduced Thelma Dale, Charlotte Bradford, Morning Glow, Mrs. Baldwin Wood and others. Described by the originator as four center or rosette center, complete irregular double "playing card" Red. Holly foliage and of strong compact growth. One year grafts \$10.00 and \$12.50, three, two-year grafts at \$15.00.

JOSHUA YOUTZ (White Daikagura)—New and doubtlessly one of the finest semi-double Whites ever introduced. Exquisite extremely large blossoms in the Fall and early Winter. Good grower. Has been out several years but we have never been able to supply the demand. One year grafts \$7.50 and \$8.50, two and three year grafts \$10.00 and \$12.50.

J. J. WHITFIELD—Dark Red, medium large, loose peony to anemone form. Vigorous, upright growth. One year grafts, mostly 12-18" \$7.50.

KERLEREC—Cameo Pink, medium large, peony to anemone form. One year grafts \$7.50 and \$8.50, two year \$10.00 and \$12.50.

LOOKAWAY—Much sought after sport of Herme with same characteristics of form and growth. Deep Rose Pink in throat with wide border of White. One year grafts \$7.50 and \$8.50, two year grafts \$10.00 and \$12.50.

MASQUERADE—White striped Pink on one or more petals. Large semi-anemone form with lacey petaloids in center. Medium, compact growth. One year grafts only, \$7.50.

MASTERPIECE—White opening with Blush bud. Large, high centered peony to rose form double. Vigorous, open upright growth. One year grafts only, \$7.50.

MATHOTIANA SUPREME—A semi-double Mathotiana with stamens interspersed among the petals. Need we say more! In our opinion one of the best "new" varieties in years. Truly magnificent and should be in every collection. One year grafts \$7.50 and \$8.50, and a few two year grafts \$10.00 and \$12.50.

NINA AVERY—One of the best new varieties. White washed Rose Pink giving the appearance of being White edged Rose Pink, with White stamens tipped light Brown. Medium blossom semi-double to peony form. Of its type, the best. Good upright, compact bush. One year grafts \$7.50 and \$8.50, and a few two year grafts \$10.00 and \$12.50.

PINK SHADOWS—Deep Salmon Pink with deeper shades of Pink. Large, semi-double with fimbriated inner petals. Medium, upright compact growth. One year grafts only, \$7.50 and \$8.50.

PRINCESS ELIZABETH—Gorgeous is the word for this one. Large full double, outer petals Blush Pink with inner petals White and irregularly placed with White stamens. We sold out completely on this one last year so only have one year grafts this season at \$7.50 and \$8.50.

R. L. WHEELER (plant patent #1137)—Color is from a deep Pink to a gorgeous Rose with blossoms having been measured up to 7½ inches, described as the World's most spectacular Camellia. Semi-double to incomplete double. Blue ribbon winner almost every place shown, among them the coveted Illges Award for 1953. We are licensed by the originator to propagate this fine Camellia and last year were completely sold out on a very limited number of plants very early in the season. This season the supply is short again with a limited number of one year grafts at \$10.00 and \$12.50.

SCENTED TREASURE—Rose Red to Wine Red, medium, peony form with mass of stamens and many petaloids. Medium, compact growth. Blossom fragrant. One year grafts only at \$7.50 and \$8.50.

SPRING SONNET—Sport of Colonial Lady which is sport of Herme. Pale Pink with deeper Pink margin. One of the Herme series and everyone wants it. Beautiful. One year grafts only at \$7.50. Very, very limited supply.

RARE CAMELLIAS

ADOLPH AUDUSSON — Dark Red splotted White, very large semi-double. Compact sturdy growth. Sizes A1, B3 and C3.

ADOLPH AUDUSSON SPECIAL—Predominantly White, speckled rather than blotched form of Adolph Audusson. In our opinion one of the finest, most spectacular of the variegated semi-double Camellias. A1, B1, B2, B3 and C3.

AMICHAEL—Dark Red with beet root Purple shade toward edge, medium large, peony form flower. Very vigorous growth. C2.

ARAJISHI (Aloha)—Dark Salmon Rose, full large peony form. Vigorous, upright open growth. Very early bloomer. C2.
